Bold names indicate a change of order or family

¹ Spotted Sandpiper is here 10 months of the year, leaving briefly in the summer to breed at higher elevations

Verde River @ Clarkdale

Birdlist

Bald Eagle

A Checklist of Birds in the Verde River @ Clarkdale and its Vicinity

Updated-February 2018

Birding at the Verde River @ Clarkdale

The Verde River @ Clarkdale is located within the National Audubon Society’s Tuzigoot Important Birding Area (IBA), where the Verde River’s lush riparian habitat attracts an exceptionally wide range of species. Public access for birders is available at the Town of Clarkdale’s Lower TAPCO River Access Point, the Tuzigoot River Access Point (part of Arizona State Parks Verde River Greenway), and also at the National Park Service’s Tuzigoot National Monument and Tavasci Marsh.

With nearly 200 species inhabiting the area, a few of the “signature” birds in this stretch of the Verde River are: Common Black Hawk, Bald Eagle, Black Phoebe, Wood Duck, Spotted Sandpiper, Yellow-billed Cuckoo, Crissal Thrasher, Yellow-breasted Chat, Song Sparrow, Great Blue Heron and Belted Kingfisher.

This checklist was developed using the latest American Ornithological Union names and clad positions.
